

Leiba Rustin's Life Force, on wood panel.

Everyday miracles

Artist Leiba Rustin sees miracles in the everyday, and brings them to us through her art.

Miracles of Everyday is the title of her collection of mixed-media works, saturated with inspiration and meaning. Her choice of subjects may seem ordinary – flower bouquets, household objects such as chairs or a sink, or entire rooms – but everything she paints has special significance for her.

The exhibit is divided into two

branches: Blessings, containing Hebrew blessings which are founded on gifts of nature, and Country, portraying recollections of happy days in Rustin's parents' country home.

Her very symbolic art is rooted in her life and evokes her spirituality, her love for and bond with her family and her appreciation for life and nature.
